City of Grand Rapids
Strategic Plan
FY2020–FY2023
(July 1, 2019 – June 30, 2023)
April 9, 2019
Hello Grand Rapids!

I am honored to serve as your City Manager and I take seriously the awesome responsibility I have to bring the hopes and dreams of our community to fruition. Grand Rapids is one of America’s premiere cities due to the people that live and work here as well as the City’s elected officials and staff that dedicate themselves to public service.

We have accomplished a lot and our future is bright, but we do have our challenges. Upon arriving in Grand Rapids, it became clear to me that a strategic plan was needed to organize and focus the work of the City. In collaboration with City Commission and staff, I am excited to share with you the City of Grand Rapids’ first strategic plan, which will serve as the operating plan for the City.

We started the planning process by establishing the City’s core values. I lead with these values and will hold myself and my staff accountable for upholding these values. Next, we created new Vision and Mission statements. As the City Manager, I am responsible for setting the Mission – To elevate quality of life through excellent City services. Implementing this plan is how we will accomplish this. This plan is the community playbook for aligning initiatives, resources, goals, department operations, projects, and investments with a transparent and trackable timeline. It will shape our budget, guide our near term progress and help us achieve our long term vision.

Through our planning process, we worked to determine who we are, where we want to go, how we reach our goals and, most importantly, how we measure our success over time. While it’s critical that we hold one another accountable for results, it’s also important that we continue our collaboration with the community and that you hold us accountable as well. With your help, we can achieve the outcomes laid out in this plan.

This is particularly important as we embrace equity in every aspect of this plan. We must ensure that all people are respected and valued and we need to work together to eliminate the disparate impacts on communities of color due to systemic and institutional injustices. Not one of these outcomes will be successful if it fails to advance a more equitable future.

Finally, I am extremely grateful for the tremendous effort provided by our City Commissioners, Strategic Plan Project Manager, Alison Waske Sutter, and the nearly 50 staff that were instrumental in the creation of this plan (our awesome team is listed on page 33). Our City staff are truly the champions behind this plan and I am looking forward to working with each and every one of them to successfully implement this plan and positively impact our community.

Together, our collective planning and implementation efforts will advance our community journey in becoming one of the best cities in the country.

Planning Process

We began our strategic planning journey in November of 2018. Within five months, City Manager Washington:

- Created an eight-person Executive Strategy Team
- Appointed a Strategic Plan Project Manager, who managed a ten-person Project Team and an additional 27 Outcome Team members
- Engaged over 1,000 City employees in-person in a discussion about values and his desire to use a strategic plan to focus City work
- Hosted four strategic planning workshops with City Commission, totaling 11 hours
- Partnered with Mayor Rosalynn Bliss on the City’s first Digital Town Hall, which focused on our strategic planning process

In the beginning, we created a strategic plan framework to guide the creation of our plan. This framework demonstrates:

- How the strategic plan aligns with the long-term master plan and short-term fiscal plan
- How our values, Vision and Mission shape our City’s identity and create the roadmap for the strategic plan
- How the plan’s priorities, outcomes, objectives, strategies and metrics work together to define what we hope to achieve, how we plan to achieve it and how we will measure our progress
- How the City will hold itself accountable to the plan through annual performance reports and staff performance evaluations
Strategic Priorities

Strategic priorities are the high-level "buckets" through which we organize our work.

Outcomes

Plan outcomes are what we hope to accomplish within each of the strategic priorities.

Objectives

Objectives identify where we will focus our efforts. There are multiple objectives within each strategic priority.

Strategies

Strategies identify how we will achieve our objectives and desired outcomes.

Metrics

We will measure how well we are achieving our objectives and desired outcomes through our metrics. Unless otherwise noted, the intention is to meet the goal within the plan’s timeframe.

Using the plan

We will use this plan to guide our operations and financial investments. As we continue to work more collaboratively internally and externally, we will uncover more opportunities for innovation, sustainability and enhanced customer service.

This plan is intended to be a living breathing document. As this is the City’s first strategic plan, we will be learning throughout the implementation phase. We recognize and acknowledge that updates will need to be made and we commit to being transparent about our learnings and forthcoming updates.

Vision

Grand Rapids will be nationally recognized as an equitable, welcoming, innovative and collaborative city with a robust economy, safe and healthy community, and the opportunity for a high quality of life for all.

Mission

To elevate quality of life through excellent City services.

Priorities

Governmental Excellence
A fiscally resilient government powered by high performing and knowledgeable staff equipped with the appropriate tools and resources to offer excellent, equitable and innovative public service.

Economic Prosperity and Affordability
Residents, employees and businesses have pathways to financial growth and security.

Engaged and Connected Community
Residents and stakeholders have awareness of and voice in decisions that affect them, and receive culturally-responsive and proactive communication.

Health and Environment
The health of all people and the environment are advocated for, protected and enhanced.

Mobility
Innovative, efficient and equitable mobility solutions are safe, affordable and convenient to the community.

Safe Community
All people feel safe and are safe at all times throughout our community.
“Racial inequities have been baked into government, and ... racial inequities across all indicators for success are deep and pervasive. We also know that other groups of people are still marginalized, including based on gender, sexual orientation, ability and age, to name but a few. Focusing on racial equity provides the opportunity to introduce a framework, tools and resources that can also be applied to other areas of marginalization.” (2019, Government Alliance on Race and Equity)

The City of Grand Rapids is dedicated to advancing equitable outcomes and opportunities by leading with racial equity to address root causes of disparities. The City defines equity as the condition achieved when people have the tools, resources and connections necessary to be fully engaged and prepared to benefit from the opportunities they seek. Racial equity is achieved when one’s race or ethnicity does not determine, in a statistical sense, how one experiences opportunity, power and life outcomes.

This targeted approach on racial equity will advance our universal goal of elevating quality of life in Grand Rapids. Equity is one of the City’s six values and must be embedded into all of our decisions, policies and practices. In an effort to dismantle the systemic and institutional injustice that has been prevalent throughout our history, the City has made the conscious choice to highlight equity in each priority area of our strategic plan.

The first objective in this plan outlines the City’s commitment to creating a structure within City operations to lift up racial equity throughout the organization so that each department has the knowledge, skills and support to intentionally remove and prevent barriers created by systemic and institutional injustice.

Additionally, to the extent possible, all plan metrics will be disaggregated by race and ethnicity, and when needed as a proxy, by geography (Census tracts, Wards, etc.). This statement is an urgent call to action to transform government to achieve positive and sustainable community level impact.

The City of Grand Rapids centers racial equity so that the recognition listed on page four of this document will be the lived reality of all Grand Rapids residents, regardless of race or ethnicity. When we read those rankings and recognitions, we must always ensure Grand Rapids is the “Best Place to Retire” and “Most Affordable City for Business Professionals to Live and Work” for everyone who calls Grand Rapids home. We must be mindful of the areas that require improvement such as being ranked 122nd in U.S. for Hispanic Entrepreneurs (2018, WalletHub), 2nd Worst for African Americans Economically (2015, Forbes) and 39th for Residential Segregation (2018, Apartment List).

We are fully aware of the challenges and opportunities before us as we lead with equity. We also know that as a municipality, we are uniquely positioned to reduce disparities through policy, intentional practices, transparency and accountability. The City, in partnership with organizational allies and community, can help make Grand Rapids truly the “Best Place to Live in the U.S.” for everyone.

Implementation

We must successfully implement this plan to focus the City’s finite resources to achieve our desired outcomes. The creation of a strategic plan is the first step in an important journey to achieving more equitable, effective and sustainable operations.

With the completion of this written plan, we now turn our focus to creating a robust implementation process that will include:

- Establishing a performance management team responsible for managing the successful implementation of the plan
- Assigning accountability to staff for measuring, tracking, accomplishing and reporting on the progress of strategies and metrics
- Creating a robust information and data tracking system that supports detailed analysis of performance
- Training staff on the plan, implementation process and performance management expectations
- Establishing a cadence of report-outs on progress, which will include internal staff reporting as well as an annual report to the Commission and public
- Publishing performance information and data publicly on the website and through other communication methods
- Updating the plan as needed
- Reorganizing the budget and budget process to align with the plan
- Integrating strategic plan performance measures into employee evaluations

Each year, the City Manager proposes the City’s budget around April. As a part of the budget proposal, the City Manager will highlight the key strategies from this plan that we are investing in for the upcoming fiscal year, which runs from July 1 through June 30. This plan is a four year plan and we are working to understand how we can invest to achieve our desired outcomes within this timeframe. We will be learning as we go for these first few years, but we are excited to be on this journey and we hope that this plan helps you better understand our priorities and direction.
